Why join a course with IMA International?

- We use a mix of instructor led webinars and an interactive platform with video's, quizzes, self-study assignments and groupwork.
- We give people their own time to self-study through our recorded modules which ask questions and point people to resources.
- We also allow people time to reflect, share with other participants on the course in pairs and small groups.
- Above all this, we have live webinar sessions where all participants on the course are invited to attend for 90 minutes to share experiences, challenge the thinking and work in break out groups.
- Beyond this, you will have access to all resources for 6 months and our facilitators will contact you 3 months after the course has finished to follow up your learning and to see if you have been able to apply any skills, if you need any support and what changes happened during this time.
