

Monitoring, Evaluation Accountability and Learning (MEAL)

Unlock insights in your organisation

Our offer:

This Monitoring, Evaluation Accountability and Learning online course is an 8-week programme specifically designed for development workers in NGOs, government, UN agencies and private sector organisations.

We know you and your organisation want to become more effective.

We believe you can do this by enhancing MEAL practices.

The course addresses MEAL for the entire results chain, and enables you to understand the importance of using information and knowledge for learning and evidence-based decision making.

Understand how to develop a learning M&E system, use new digital technologies, and explore techniques for monitoring remotely.

You will learn how to:

- decide what and how to monitor with different stakeholders
- clarify key results at the programme-level using logic models
- plan a project using the logical framework
- develop indicators and targets
- use participatory methods for data collection and analysis
- design and manage evaluation
- use your M&E findings to improve organisational learning and stakeholder engagement
- use new and innovative digital methods for M&E, including remote monitoring
- incorporate Knowledge Sharing practices into your M&E
- develop and work with a practical M&E system.

How the course works:

You work from the comfort of your own home or office. You complete the course over 8 weeks with facilitated, scheduled live meetings.

You will join a peer group of participants from different organisations and countries. IMA International facilitators will guide and mentor your learning process, providing you with:

1. Practical exercises and reflection activities
2. 6 guided 90-minute group webinars
3. Peer group work
4. Presentations and video inputs
5. Written resources and links
6. Relevant case studies
7. User-friendly platform for accessing all materials, presentations and resources, sharing with your peer group and uploading your regular assignments to a dedicated portfolio
8. Scheduled access to mentors
9. Personalised mentoring session within 3 months after the course
10. Opportunity to apply MEAL tools in your workplace.

Content:

Module 1:

MEAL fundamentals

Module 2:

Identify stakeholders and their differing needs and roles

Module 3:

Creating logic models

Module 4:

M&E frameworks

Module 5:

Assumptions and risks in design

INTERNATIONAL

I came away with not just the knowledge I was seeking but also more, and a confidence in my ability to actually apply that knowledge to my day to day work responsibilities. I've really appreciated the way the course are structured and facilitated, using a variety of different methods, from webinars to self-reflection time, to working with my peers that were also on the course with me.
